

Name: _____

Date: _____

Frog Anatomy

DISSECTION EVALUATION

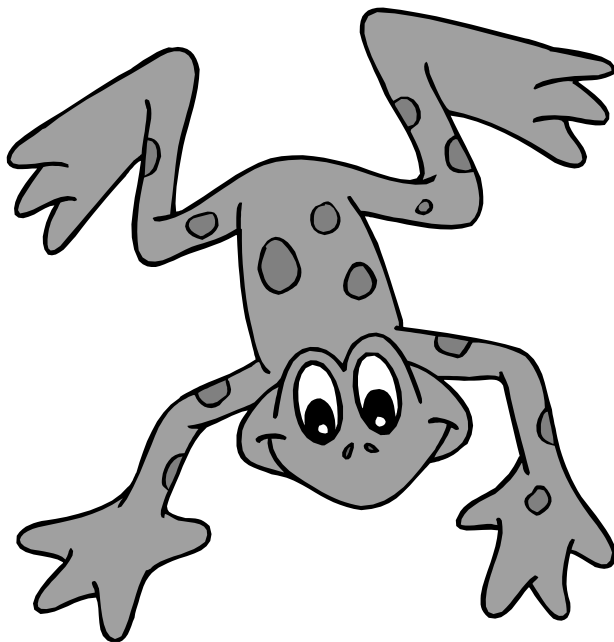

IDENTIFICATION OF ORGANS & PARTS

Identify	Organ/Part	Correctly Identified
	dorsal	
	ventral	
	nictitating membrane	
	tympanic membrane	
	tongue	
	esophagus	
	Eustachian tubes	
	glottis	
	vomerine teeth	
	maxillary teeth	
	nostrils	

TOTAL _____

Identify	Organ/Part	Correctly Identified
	fat bodies	
	peritoneum	
	liver	
	liver - right lobe	
	liver - left anterior lobe	
	liver - left posterior lobe	
	heart	
	heart - left atrium	
	heart - right atrium	
	heart - ventricle	
	conus arteriosus	
	lungs	
	lung - left lung	
	lung - right lung	
	trachea	
	gall bladder	
	stomach	
	pyloric sphincter valve	
	pancreas	
	small intestine	
	small intestine - duodenum	
	small intestine - ileum	
	small intestine - mesentery	
	large intestine	
	cloaca	
	anus	
	spleen	
	esophagus	

TOTAL _____

DISSECTION PROCESS

Criteria	Level 1	Level 2	Level 3	Level 4
Quality of dissection (i.e. tool use, pinning, preservation of all parts, incisions made correctly, correct order of observance, etc...)	Quality of dissection limited 5 5.5	Quality of dissection satisfactory 6 6.5	Quality of dissection good 7 7.5	Quality of dissection extremely high 8 9 10
